

# SHEVTEC® Louvre

Smoke Control for Roof Vents

SHEVTEC® LOUVRE

## SHEVTEC® Louvre

A fully tested and certified aluminium louvre for smoke clearance in conjunction with an activated floor. Full co-ordination and detail drawings are provided to ensure correct installation. The louvre can also be installed as an AOV at the head of the escape or Fire fighting stairs.

- High efficiency – aerodynamically tested to BS EN 12101-2:2003
- Weatherproof – its resistance to air leakage and rainwater is tested to BS 5368 and BS 6375
- Reliability - life cycle tested to class RE1000 under BS EN 12101-2:2003
- Durability - tested to withstand wind loads of class WL1500 and snow loads of up to class SL500 under BS EN 12101-2:2003
- Installation – can be fitted into any roof or glazed construction.
