

Environmental & Sustainability Policy

Loanguard Ltd t/a SE Controls

S.E. Controls group specialises in the design, manufacture, and installation of smoke and natural ventilation systems, and as a pioneer in its sector the Company recognises its responsibility to ensure that the environmental impacts of our business are managed correctly.

The policy sets out the company's commitment to ensuring that robust environmental standards and processes are integrated into all our global operations.

We are committed to sustainable development and aim to protect and contribute positively to the environment and meet the needs of the present without diminishing the opportunities of those in the future. In making a commitment to achieving sustainability and operating within a framework that includes economic, environmental, and social factors, SE Controls aims to incorporate the principles of environmental sustainability into all aspects of our sphere of operations.

S.E. Controls will ensure that these aims are achieved by:

- Compliance with all relevant legislative and regulatory requirements
- Consideration of both local and global environmental impacts of the Company's activities and so demonstrating a commitment to pollution prevention
- Assessment in advance, wherever possible, of the environmental impacts of any significant new development, purchase of material or equipment and the adoption of any new processes or technology
- Reducing the use of resources (materials, fuel, and energy) ensuring a reduction in wastage of scarce or non-renewable commodities
- Provision of the information necessary to enable the Company's products to be properly used and maintained to avoid unacceptable impacts on the environment
- Encouragement of suppliers and contractors, wherever applicable, to adopt a policy of environmental responsibility and management.
- Promote the conservation and sustainable use of natural resources in all our activities
- Promote sustainable procurement methods throughout our supply chain
- Using the principles of this policy as a framework for setting and reviewing environmental objectives and targets to achieve continual improvement in its environmental performance
- The provision of adequate resource for both internal and external education to all relevant personnel ensuring compliance with this policy and its aims.
