

# OS2 230V 6A AC Controller

## OS2 230V 6A AC Controller

The OS2 230V 6A AC Controller forms the basis of our mains voltage solutions.

The panel is for single zone applications and is fully CE marked. Environmental Ventilation control panel capable of receiving thermostatic inputs and BMS signals.

These modular building blocks can also be networked across buildings using our OSlink technology to deliver targeted, intelligent systems.

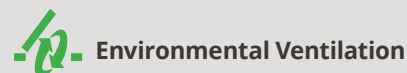

Expandable through OSlink.

## Accreditations

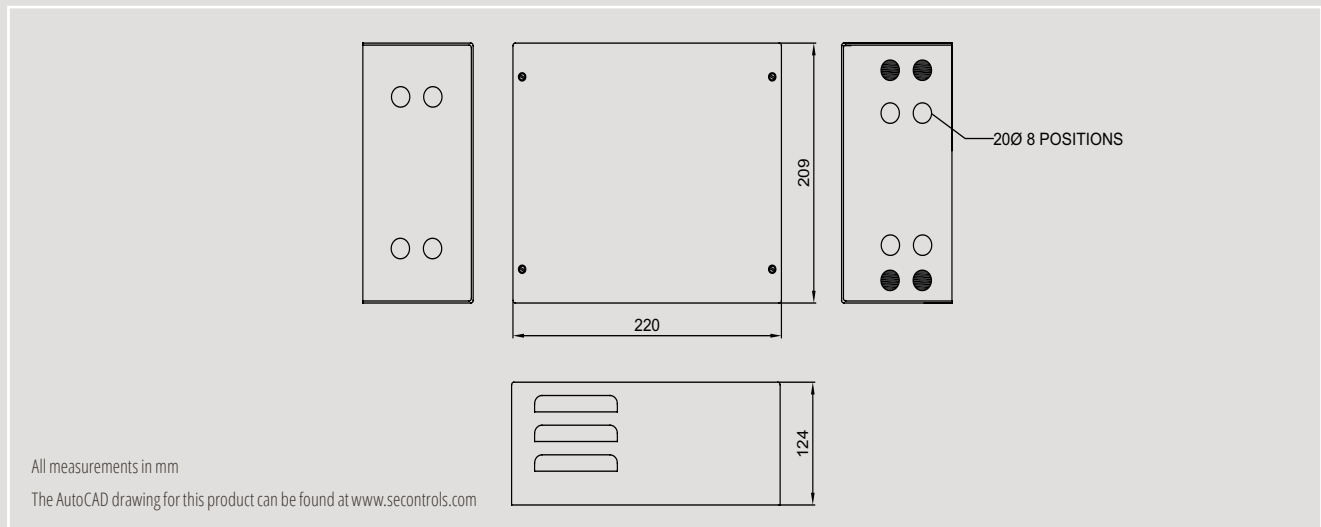

Conforms to EN61010 and EN61326, and LV directive 73/23/EC.

## Applications

## Technical Drawing

### Power

- Supply 230V AC 50/60hz at 6A
- Actuator output 230V AC at 6A
- 24V DC controls outputs up to 50mA

### Environment

- IP 20 Rated
- Humidity Range 10 to 90% Non-Condensing
- Storage -20 to +75 °C
- Operating temp -10 to +50 °C

### Miscellaneous

- Dimensions 220x209x124mm
- Mass approx 2.2Kg
- Unit comes in a standard GREY enclosure

### Product Codes

**OS2 230V 6A AC Controller**

FCS00210001
